## Report on the Talk "AI in Medical Imaging"

On September 12th, 2024, the Department of Artificial Intelligence and Machine Learning (AIML), in association with the Artificial Intelligence Student Association (AISA) and ISTE, organized an insightful talk on "AI in Medical Imaging." The event took place at E210 – DBMS/DAA Lab, Vivekananda College of Engineering & Technology, Puttur, at 11:15 AM.

Dr. Kangkana Bora, an Assistant Professor from the Department of Computer Science and IT, Cotton University, Guwahati, delivered the talk. She provided a comprehensive overview of the applications of artificial intelligence in medical imaging, highlighting its significant impact on modern healthcare through advanced diagnostic tools.

The session witnessed active participation from around 100 students from the Department of AIML and the Department of Data Science, who engaged in discussions, gaining valuable insights into the intersection of AI and healthcare technologies.

This event was held under the aegis of IEEE VCET Student Branch and the Institution's Innovation Council (IIC), ensuring a successful collaboration between academic and professional bodies.

The talk proved to be highly beneficial for students, enriching their knowledge and inspiring further exploration into AI's real-world applications in the medical field.
